

HOW TO MAKE A DRAGON KITE:

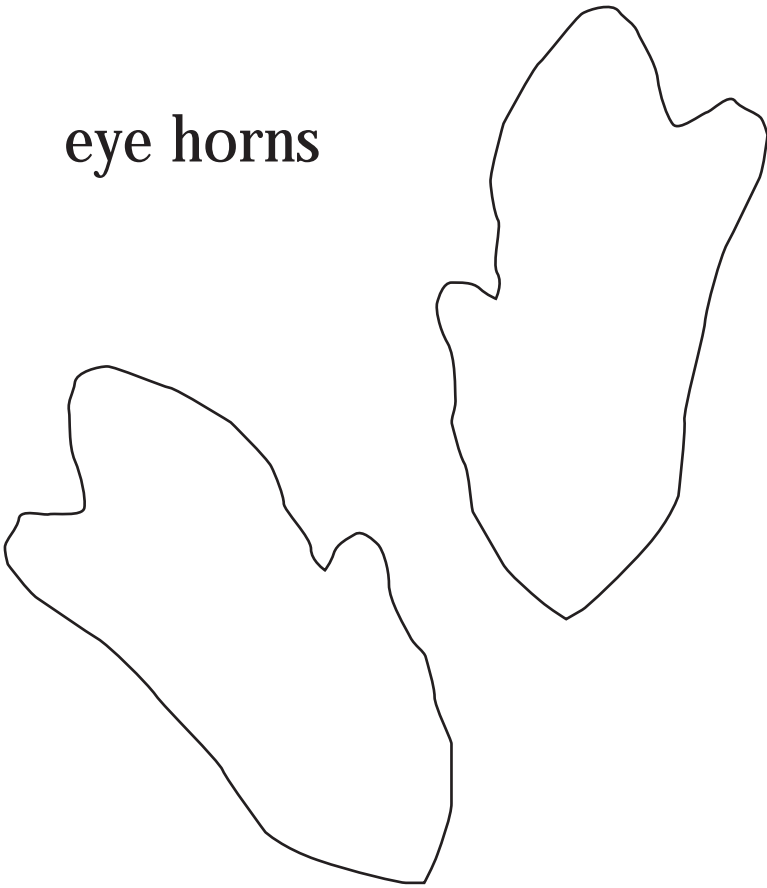

1. Trace the face template onto one color of construction paper and cut it out.
2. Trace the nose, horns and eye templates onto a different color paper and cut those out.
3. Trace the eyebrow template on the 3rd color of construction paper and cut those shapes out.
4. Place the face shape vertically and glue on the horns on the upper right and left hand side. Let the upper part of the horns extend past the face.
5. Glue the eyebrows over the lower part of the horns, the eyebrows should overlap the horns.
6. Then glue the eyeballs over the lower part of the eyebrows; the eyeballs should overlap the eyebrows.
7. Glue the nose below and in the middle of the eyes (center of face).
8. Using the black marker, color in black a black U shape under the nose for the mouth.
9. Color in black dots on the eyeballs for eyes.
10. Flip the face over and tape the end of a crepe paper streamers to the back. Do this with all the streamers.
11. Flip the face back over and decorate with star stickers.

And then you have a Dragon Kite!!

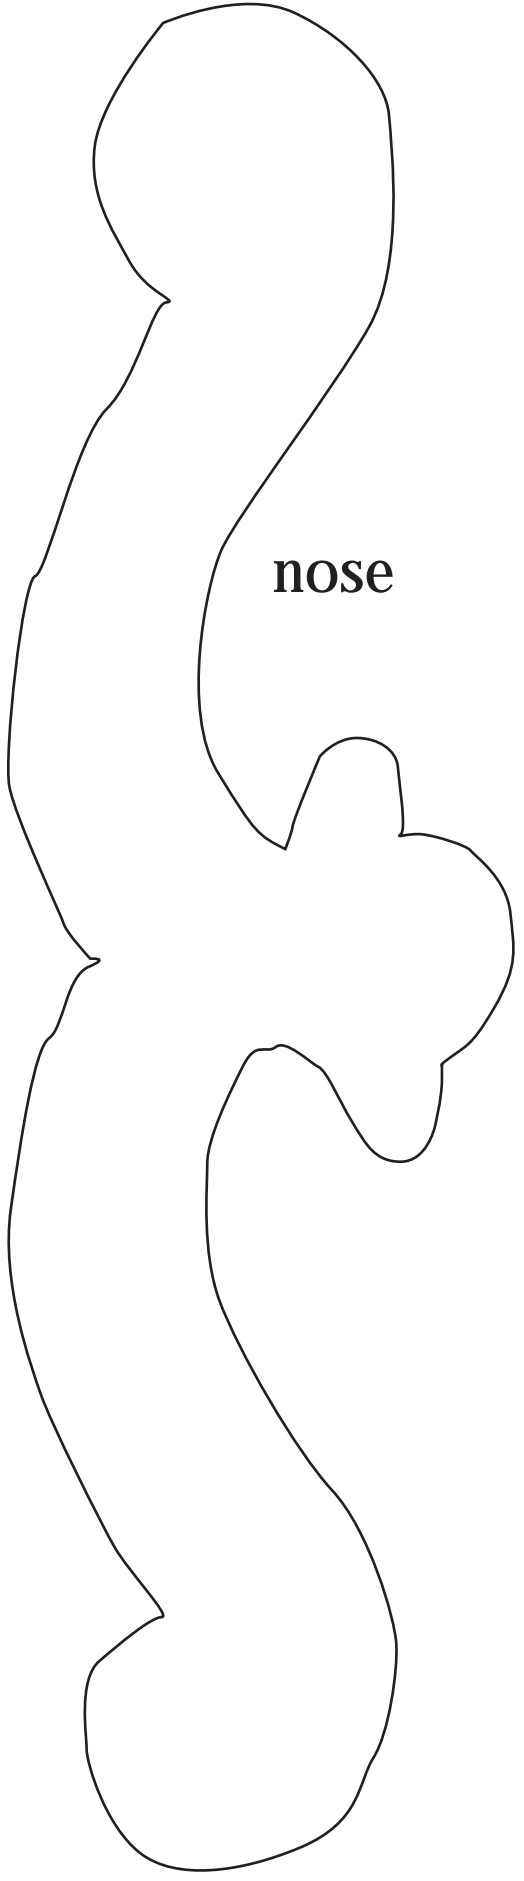

eye brows

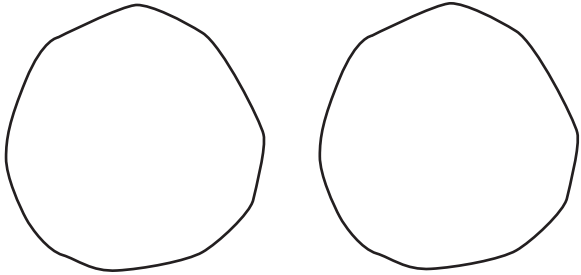

eye horns

nose

eye balls

face
